Property Address:

8975 S Indian Hills Rd
Montague, MI 49437

Welcome to my home! I purchased this cottage in 2017 to spend more time on Lake Michigan and to create memories with family and friends. I enjoy all seasons here: swimming and sun in the summer, changing leaves and warm breezes in the fall, watching ice formations and sunsets by the fire in winter, and blooming flowers and roadside asparagus in the spring. I'm now happy to share this space with you.

Thermostat:

Use the touch-screen slider on the right of the thermostat to adjust the temperature. The system is optimized to control humidity and may cool up to 2°F below the set point if indoor humidity is above 60%. If you prefer a warmer temperature, just raise the set point a degree or two.

Trash:

Kitchen trash bags are in the left pantry cabinet on the wall behind the sink. Place full bags in the outside can next to the shed. If the can is nearly full, please take it to the road by the mailbox Wednesday morning (or the night before) and bring it back later that day. There is no recycling service.

Grills:

You may use the gas grill, charcoal grill, and smoker. Clean the grill after each use. Grill mitts, rib racks, and a digital meat thermometer are in the entry closet. Smoker grates can be hand washed or placed in the dishwasher, and the water basin should be sprayed out with the hose.

A spare propane tank is between the two charcoal grills.

 For local meats check out:

- **Country Dairy** – 3476 S 80th Ave, New Era, MI
 - **Mac's Meats & Country Store** – 8730 S 88th Ave, Rothbury, MI
-

Septic and Well:

- Don't flush wipes or non-toilet paper items (even if labeled flushable), and avoid sending food down the drain.
- The small faucet at the kitchen sink dispenses reverse osmosis filtered water — great for drinking, coffee, and cooking.

 Please park to the side of the house

Do not park in front of the front deck, as this area covers the septic drain field. Driving or parking on the drain field can damage the system.

Supplies:

Cleaning supplies are under the master bath sink. Plungers are under both bathroom sinks. Broom and mop are in the entry closet. Extra toilet paper is under bathroom sinks or the kitchen pantry or master bedroom closet.

Basic condiments and spices are in the kitchen pantry. Operate under a “use and replace” policy — feel free to contribute something for future guests.

Safety:

A fire extinguisher is in the entry closet. Each bedroom has smoke and carbon monoxide detectors. Spare 9V batteries are in the kitchen utensil drawer.

Lake Michigan can be dangerous, especially in high waves. Winter ice formations are hazardous — do not walk on them.

Wood Stove / Fire Ring:

Firewood is available near the blue shed. An axe and fire starter are in the entry closet.

For the wood stove: - Pull the top knob out and bottom knob in to start. - Use small kindling first. - Once burning well, push the top knob in and adjust the bottom knob as needed. - After use, clean out ashes into the **metal container** next to the stove (once fully cooled).

For the fire ring in the yard: - Only use if no burn ban is active. Check: [Michigan DNR Burn Permits: www2.dnr.state.mi.us/BurnPermits/Search.aspx?OCEANA](http://www2.dnr.state.mi.us/BurnPermits/Search.aspx?OCEANA)
- Don't use on dry, windy days.

Bathrooms:

Use the fan in the main bathroom during showers. The master bathroom fan runs continuously as part of the home's ventilation system — it's a code requirement for continuous air exchange in energy-efficient homes. The thermostat for the heated tile floor is on the wall to the left of the bathroom door — turn it down at check-out.

TV & Music:

The main TV includes **YouTube TV** and **Apple TV+**. You're welcome to log into your own streaming accounts. The TV can swivel from the wall — please return it to its position before check-out.

The stereo receiver supports **Bluetooth** and **Apple AirPlay** — use the “Net” button on the Onkyo remote to connect.

Generator:

In a power outage, a gas generator can power everything except the air conditioning. Contact me for instructions. Outage status: Great Lakes Energy Storm Central: gtlakes.com/power-outages/ site.
